

In the specification:

*Please replace the fifth enumerated paragraph on page 15 with the following:*

7. Calculate the absorptance spectrum A, where the light absorption as derived from these diffuse reflectance measurements is given by:

$$\cancel{A = \text{LOG}_{10}((R-D)/(S-D))} A = \text{LOG}_{10}((R-D)/(S-D)) \text{ (step 207).}$$
